Appendix 1. Frequently Asked Questions

Q - My local club wants to employ me on a daily rate to deliver a course. How do I represent this in my invoice appropriately?

A - We recommend that you split out your daily rate and any expenses as separate lines on your invoice. Provider and /or Certification fees should be listed separately to these and clearly identified. Membership discounts should still be passed to individual members where relevant.

Q - What do I record if I have unsuccessful learners on a course?

A - It is important to include all learners on the course results and pay the appropriate fees as this ensures that course records are accurate and a true representation of the course that took place.

Failure to list a learner's attendance is a breach of the provider service agreement and considered maladministration.

Q - I have a learner booked on my course who does not want certification, how do I record this?

A - You must record all learners on the course results and submit them normally.

Failure to list a learner's attendance is a breach of the provider service agreement and considered maladministration.

Q - Should I include provider fees in the advertised course cost?

A - Provider fees are used to support, resource and review the delivery and development of courses. They are a fixed cost per candidate and should be included in the advertised cost of the course.
